

Lords of the Earth

Campaign Fifteen

Turn 0

Anno Domini 995-1000

TURN 1 ORDERS DUE BY: FRIDAY, JANUARY 17TH 2014

A MESSAGE FROM THE REF...

Hello There!

After much contemplation (not to mention some cursing and swearing), I decided to start processing Lords turns again. I will send stat sheets out today (12/30/13) along with this fax.

About the Map: This campaign is currently confined to the Western Europe map. If interest increases, it will expand to other other maps (or the parts of other maps). For the moment here are some things to keep in mind.

First, any region which contains a both a name and a gp/resistance value is playable, occupyable, etc.; with the exception of Kiev on the eastern map edge. The region is normal in all respects except that a city may not be built there (one already exists, it's just not in the playing area). When the play area expands, the city will "come online" as it were and be available.

Second, the Region of Denmark consists of both Zeeland and Jutland at this time. This may change when the playing area expands.

Leaders: No leaders and heirs have been **named** on the stat sheet. Feel free to provide them.

ANNOUNCEMENTS

Rulebook Version... This campaign uses the greatly simplified Lords Lite rules which are available off of the Lords 15 website.
